## **We are pleased to announce a new benefit for our debit cardholders!**

We're introducing a new app called CardNav<sup>SM</sup> by CO-OP, which lets you manage your cards by remote control from your smartphone.

With CardNav, you can turn cards on or off in seconds, and use GPS to restrict transactions to businesses within a designated area. You can limit card use to specific merchants or purchases. You also can receive alerts when you're getting close to any personal spending limits you've set.

In addition to letting you turn your cards on and off whenever you choose, CardNav lets you control when, where and how they're used. It can even provide instant updates to help manage your budget and help identify and stop potential fraud from happening. The CardNav app is available for download on your mobile device at the [Apple App Store](#) or [Google Play](#).
